Paradise POS
The POS Features You Want on an iPad Interface You Love

Retail and restaurant owners choose Paradise POS because it combines legacy POS functions with the convenience and simplicity of the iPad UI. Paradise POS offers extra elements that make running your business easier, with customizable features and secure system all backed by a dedicated customer support team.

Paradise POS Features:

- **iOS Based design** and build offers a phenomenal user experience for employees, customers and management.
- **Offline Mode** allows your business to keep processing secure payments even when your internet goes down.
- **Payroll functions** allow you to track employee hours and manage your labor dollars to upload to QuickBooks or for your CPA.
- **Inventory Management** uses the Paradise POS's barcode sanner to make updates easily and wirelessly. You can even print labels with a scannable barcode directly from Paradise POS.
- **Pay-at-the-table** for restaurants gives you the option to create QR codes for payments, take NFC payments like ApplePay and more.
- **24/7 Dedicated Support** offered directly from Paradise POS means less downtime and more worktime.

Paradise POS comes in two packages fit for any business

- Paradise POS for Retail
- Paradise POS for Restaurant
